

DEPARTMENT OF PHARMACOLOGY AND TOXICOLOGY
Departmental Summer Student Research Award

2022 APPLICATION GUIDELINES

The Department of Pharmacology and Toxicology invites summer studentship applications from undergraduate students. With the generous financial support provided by the Department of Pharmacology and Toxicology, we are pleased to offer this award on a competitive basis to provide UofT undergraduate students with an opportunity to gain valuable research experience during the summer session.

Students accepted into the program will work on a specific research project under the supervision of a faculty member and may meet on a weekly basis for group seminars and discussion at the discretion of their supervisor. All students are required to submit a written final report with a length of at least three double-spaced pages (not including references) and give a 10-15 minute presentation of their research in August. Both the report and presentation should address the nature of research conducted by the student including: the scientific background relevant for the research topic, objectives/hypotheses, methodology, results, and discussion and conclusions. The supervisor should provide the student with feedback on the report and presentation, and a copy of the final report must be submitted to the Program Coordinator by **August 31, 2022**.

Students are responsible for contacting the professors of their choice to inquire about research projects and laboratory space. A list of potential supervisors and their research interests is available by accessing the faculty list (www.pharmtox.utoronto.ca/faculty). Interested students should contact potential supervisors directly to arrange an appointment to meet. Most professors will ask the student to bring their academic record and a resume or curriculum vitae to the initial interview.

Duration:

- Students are expected to engage in full-time research for at least 12 weeks as agreed upon with the supervisor from May to August to be able to qualify for the full stipend of **5.000** (\$2,500 from the Department of Pharmacology and Toxicology + \$2,500 paid by the sponsoring professor).

Eligibility:

- Students may be from any Pharmacology or Biomedical Toxicology program offered by the department; this includes second-year students who are currently general departmental specialists or majors.
- Interested applicants must have completed at least two terms in an undergraduate program, be returning to an undergraduate program in the fall following the award and have a minimum of a B average in the two most recently completed terms.
- Students must be supervised by a faculty member of the Department of Pharmacology and Toxicology.
- Students may only submit one application to this program and each professor may only sponsor one student. Failure to comply with this rule may result in the application being denied.
- Preference will be given to students who have an interest in a research career in pharmacology or toxicology.
- No restrictions on research topics.

Students participating in this program cannot receive a course credit (e.g., PCL472Y or PCL474Y) for this work. However, students on a PEY placement are eligible if all other criteria are met.

Interested students should:

1. Seek a position with a faculty member of the Department of Pharmacology and Toxicology who is willing to supervise you and to complete the sponsorship agreement form providing a minimum of \$2,400 for the duration of the studentship program (i.e., minimum 12 weeks).
2. Submit a complete application by **March 14, 2022** including the application form, resume or curriculum vitae (CV), list of 2-3 references, official academic transcript(s), and the sponsorship agreement form. Only complete applications received by the deadline date from students meeting the eligibility criteria will be reviewed.

Dear Awards Committee:

**RE: Departmental Summer Student Research Award 2022
Supervisor Agreement Letter**

I agree to sponsor _____ for a Departmental Summer Research Studentship in my laboratory during the summer of 2022. I understand that I am only allowed to sponsor one student for this program.

I agree to assign a suitable research project, to supervise this student throughout the summer program, and to ensure that the student has the appropriate safety / ethics training. I understand that the student is expected to work for an agreed upon duration of at least 12 weeks during the summer.

I also agree to provide a stipend of at least \$2,500 for this student, if the student has been granted a Departmental Award. The Department of Pharmacology & Toxicology will provide the student with an additional \$2,500 for a total stipend of \$5,000.

Sincerely,

Signature of Supervisor
